

FAQ - WHO ELSE USES HECAT EQUIPMENT?

A/C Component Flushers are used to clean the Evaporators, Condensers, and Line Sets in Automotive, Fleet (truck, bus, etc.), Aviation (cabin A/C, avionics cooling, galley refrigeration, etc.), & HVAC applications. **Transmission Oil Cooler Flushers** are an industry standard for use in professional transmission repair shops. The "Coolant Pulsator"; the Professional Tool & Equipment News (PTEN) 2008 Innovation Award winning **Engine Cooling System Flusher**, is a huge hit with professional radiator shops and general repair shops.

Listed below is a sampling of satisfied customers (and many more) that HECAT has supplied solutions to. They all have either used, use, recommend, and/or remarket HECAT products. Schools & Training Centers are using HECAT equipment and/or technical writings in their Automotive or Aviation technician training courses.
